  - Decorations

Our second project for this client in the unit adjacent to their original project carried out in 2008 was a full design and build form of contract. We created a structural opening to link the units together and carried out the works whilst the tenant remained in occupation. As with our previous project the level of finish expected was extremely high which Cameron Black delivered on time and defect free.

**Duration** 10 weeks

**Value** £300,000

**Architect** Cameron Black

**M&E** Cameron Black
