As well as the refurbishment and redecoration of this 5-bed, 4 bathroom property, Cameron Black undertook a full inventory of the existing contents and organised for all furniture, fixtures & fittings to be placed into storage whilst work was undertaken. New floor, wall and ceiling finishes, fixtures & fittings were selected with close consultation between the client and our in-house designer. On completion of the works all furniture, soft furnishings and contents were returned and placed in original positions as per our photographic records taken prior to commencement of the project. The property serves as a base for the head of state when visiting London.
