

The London Clinic, Harley Street, W1

Project Description

- PET CT scanning rooms
- Gamma camera rooms
- 2 Mammography rooms
 - Ultrasound room
 - Hot wait rooms
- Patient injection room
- Patient changing rooms
 - Reception areas
 - Full M&E
- Installation of medical gases
- Installation of nurse call system

Extending our private healthcare experience this was our first project for The London Clinic and involved the refurbishment of the 8th floor of a fully occupied private hospital in London's exclusive Harley Street. The hospital had to remain fully operational throughout the duration of the works preventing internal access to the floor which had to be reached via an external hoist.

Duration 22 weeks

Value £1.6m
