

Private Client, William Mews, SW1

Project Description

- Full demolition of internal structure
- Temporary works to necessitate the above
 - New structural steel works
- New steel frame work for additional floor
 - New Poly and Mansard roof works
 - New M&E services throughout
 - Bespoke joinery staircase
 - Bespoke lighting
 - Decorations
 - Floor finishes

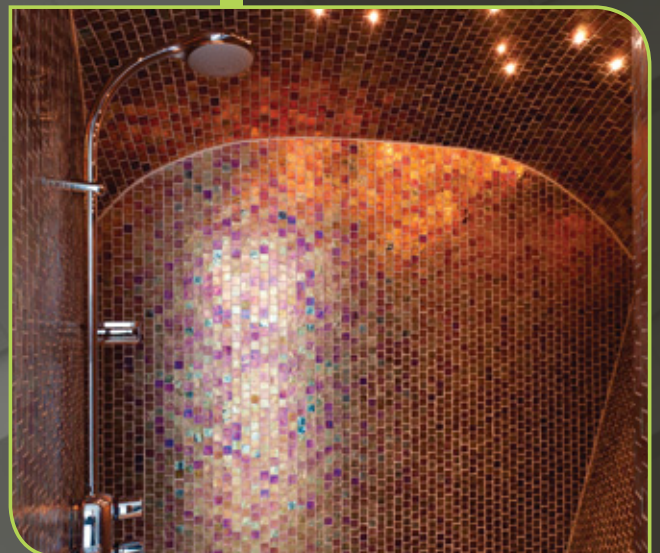

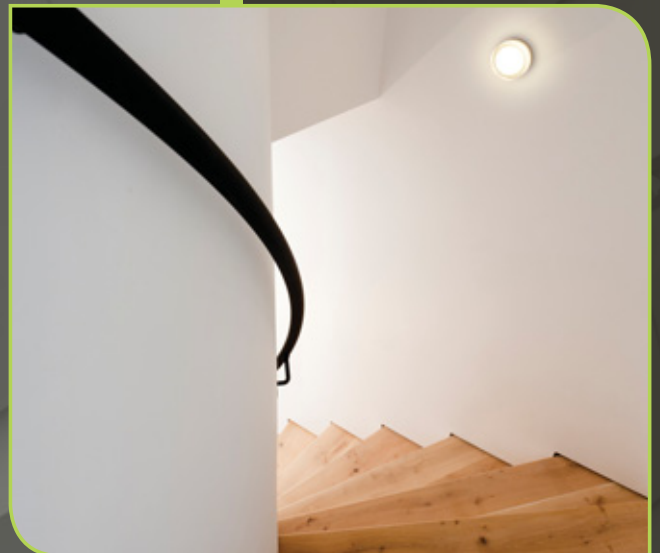

The project was undertaken within a mews style property in an exclusive location. The neighbouring properties remained in occupation throughout and the Cameron Black team had to co-ordinate the works so as to cause minimum disruption. The level of finishes expected was extremely high requiring careful selection of our supply chain.

Duration 28 weeks

Value £400k
